

Achievements in Geography Curriculum

Our students achieve highly:

GCSE results 2022: 51% of students achieved grades 7-9, 82% of students achieve a grade of 4+

A Level results 2022: 56% of students achieved grades A*-A, 75% of students achieved grades A*-B, 100% of students achieved grades A*-D.

Our students enjoy Geography!

Fieldtrip - term 5 2022 - Year 12 Geography students spent 4 days at Nettlecombe FSC learning about the enquiry approach and undertaking their independent data collection for their Non Examined Assessment component of their A level. They were a credit to the school!

Student feedback from A level students:

"I found my teachers incredibly helpful, probably the most helpful across all my subjects. They were really approachable and took the time to explain things clearly. In the lead up to exams I found the frequent revision sessions and availability of teachers in school really useful. I also liked the heavily interactive aspect of lessons which kept me engaged"

"Thank you for all the hard work you put into your lessons. Without your help I would have struggled a lot, as much as anyone [student] can work - a positive input by teachers can make the world of difference. I look forward to coming back to visit"

"Thank you for making geography so engaging, I've really enjoyed it as a subject!"

Our staff are engaged with CPD

In the academic year 2021-22 two members of the Geography department successfully completed NPQSL qualifications, one member successfully completed an NPQML and a fourth member successfully passed her first year as an ECT. The department continually seeks new opportunities to develop as teachers.
