

## **Achievements in the PSHEe Curriculum**

In the PSHEe department we use the staff monitored @bccpshe instagram account to celebrate brilliant work, stimulate thought provoking discussion, draw attention to important world issues and signpost to essential services designed to support those who may need it.

### **A snapshot of student voice taken on experience of PSHE at BCCS**

*“It teaches me how to behave in tricky situations - it is better to learn about this in advance than when it is actually happening to me”*

*“ I enjoy the passionate discussion and group work -PSHEe has a different feel to it”*

*“In PSHEe I have learnt alot about things that help me to feel confident in myself”*

*“I think information is coming to us at the right time through PSHEe so we do not need to panic as we grow up and enter the real world. Because of PSHEe I feel more confident and no longer embarrassed to ask difficult questions”*

*“I think I have learned empathy [through PSHEe] the lessons on mental health issues were really important and memorable”*

*“The lesson that stuck in my mind the most was when we learnt about consent - I think the message really got across to me; hopefully the rest of the class feel the same way.*

**Student voice taken from SEND/PP and BAME students as part of DDS (Apri- June 2021)**

**Or annual student voice surveys**
